Australian Wine & Food

- Dale Thomson founded the Australian Wine & Food Company in 1998.
- Our goal was to promote quality Australian producers through an original 100% Australian gift hamper to benefit both regional businesses and metropolitan recipients.
- Through the process of promoting our gift hampers to Melbourne corporate groups we found an overwhelming appreciation of Australian regional businesses and their commitment to the production of quality food and beverages produced here in Australia.
- “We discovered that city people were having difficulty in accessing our quality Australian country produce”
- To bridge this disconnection we set about securing new metropolitan venues to taste, promote and sell a wider range of Australian produce. We provided infrastructure, professional staffing, licensing, permits and logistical support for Australian food and beverage businesses to present and sell their products to the metropolitan market.
- A weekly calendar of market locations is now listed on our website, and we welcome producers and visitors to participate in our Australian Wine & Food events to support Australian businesses and enjoy our world class produce.

Caterina's Cucina and Bar (Caterina Borsato)

- Launched in 1995, Caterina's Cucina e Bar is a Melbourne institution dedicated to turning out sophisticated, traditional Italian cuisine with a bow to modernism. The inspiration behind many business deals has been executed over long lunches at Caterina's, which have become an established tradition amongst the Melbourne corporate and legal fraternities. Lunches can be a lengthy affair or simply done 'espresso' style at the large marble bar. Long time favourites include the Northern Italian inspired baccalà on polenta, a classic risotto of saffron and bone marrow, house-produced filled pastas, along with simpler egg noodles with crab and shaved bottarga. The room speaks volumes of Melbourne history. Mietta's original marble tables, industrial scales from Stephanie's and carefully curated antiques collected over 25 years have created a Venetian inspired, but New York style, hidden gem in a basement. The team, led by Caterina Borsato, are Italian born or Italian at heart and are able to recreate what is known in Italy as 'l'arte dell'ospitalità Italiana', the art of Italian hospitality. A passionately selected wine list of Italian and local labels completes the experience. Buon appetito.

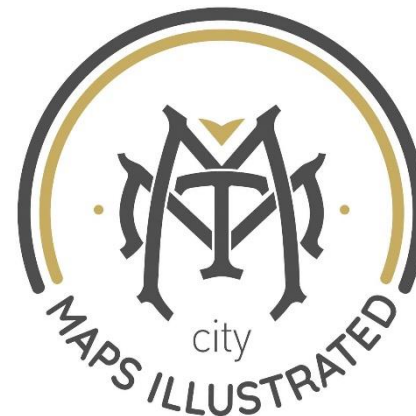

Chocoholic Tours

- Amanda McKay and husband Carl Whiteside have been looking after the company since 2017 and have continued the reputation of excellent chocolate walking tours of Melbourne that Suzie and Jessica had forged over two decades.
- Carl is an absolute chocoholic so couldn't miss the opportunity to get involved in chocolate walking tours! His love affair with chocolate starting at 6 weeks old when his Nana fed him a Cadbury Crème Egg and he hasn't looked back! Carl loves discovering the new chocolateries and dessert bars of Melbourne and working with our partners to devise the best tour experiences we can offer to our guests.
- Amanda had been working for Suzie and Jessica as a Chocolate Walking Tour Guide since 2014 and was happy to step in and take over the business – ensuring it remained in the Chocoholic family.
- In the years Amanda has been leading chocolate walking tours around Melbourne she has loved educating fellow chocoholics about the true value of high quality chocolate and savouring the experiences that we offer on the tours. Added to that is the opportunity to share the unique history of Melbourne's lanes and arcades.
- Over the years, along with our team of highly experienced, passionate, local chocolate walking tour guides, Amanda has gotten to know the store owners and managers of some of Melbourne's best chocolateries and we love to share their stories with our guests.
- Together, we strive to treat you to the best walking tour Melbourne has to offer. We hope you will be filled with happiness and knowledge about both the chocolate industry and Melbourne by the time you finish one of our chocolate walking tours.

City Maps Illustrated Pty Ltd

- We are a small team of artists, passionate about what we do and particularly enamoured with creating detailed illustrated maps.
- The maps take a ton of time and money to bring to fruition, and we've had the most extraordinary support from admirers of our work.
- In 2017, with The Melbourne Map well on its way, we gave crowdfunding a try, to help bring the project to completion. The response was amazing and heartwarming.
- Out of the confines of a tiny studio, we discovered that so many other people love maps – and love Melbourne.

Clementine's

- We're pretty passionate about supporting small businesses and providing locally made products and produce to our community in the heart of Melbourne City.
- Don't get us wrong, we love & appreciate good quality & well designed items from around the world but decided to dedicate our store to Australian made and specialise in products and produce made in our state of Victoria.
- It was a trip to France in 2011 by founder Melanie Ashe & her family that saw the kernel of this idea come to fruition. France has a very high regard for it's artisan makers and producers however when leaving to go home via Paris it was very hard to find any of those wonderful keepsakes that we had seen in the villages and small townships, in the city's stores. Everything seemed to be made in another country. Crazy, no? It was then that the realisation struck that, at the time Melbourne was exactly the same. It might have Australian themed goods but more often than not, they were actually made elsewhere. It was time to rebalance that situation and so Clementine's was established in 2011 on our iconic & much loved Degraeves Street in Melbourne City.

- The boutique space is styled with original artworks, quality design, plants and natural light; delivering a inspiring setting for your meetings and events. An authentic and creative space to inspire your participants. The space incorporates a function venue, meeting rooms, co-working, business lounge, balcony and accommodation. The lift opens directly into the reception area, where our friendly crew welcome you and your guests with freshly ground coffee and access to free wifi.
- The Function Room is versatile for a range of styling and configurations for up to 100 guests. Suiting events, workshops, masterclasses, filming, rehearsals and performances. The space includes a stage and parquetry dancefloor. Equipped with an audio system, digital screens and free wifi. A sliding feature wall which can be closed for separation from the catering area or open for a larger venue space. Meeting Rooms: for smaller workshops, and meetings.

Essensorie

- Mother Nature is at the heart of Essensorie. We believe that the depth and complexity of her fragrances are simply not replicable using synthetic molecules in a laboratory. Essential oils and absolutes - extracted from leaves, flowers, timbers, fruits, seeds, resins and roots - intimately connect us with the natural world through scent. Essensorie exists to facilitate this bond; it is our goal to bring you nature, bottled.
- All of our products are blended and bottled in our upstairs studio at The Block Arcade by our founder and perfumer Nicole Thomas and her team. Nicole spent the formative years of her life on her parents' plant nursery. It was here that her lifelong love of plants and natural fragrance blossomed. A serial entrepreneur from a young age, she worked as a designer and marketer for much of her early career before a chance genealogical discovery inspired a voyage to her ancestral homeland, the south of France. Here she discovered the ancient art of natural perfumery.

- Joanne's large-scale hyperrealistic charcoal portraits depict leading artists, actors, businesspeople and philanthropists.
- Her dramatic, wall-sized images have captured the eye of galleries, designers, and private collectors worldwide. Joanne's outstanding level of detail and artistic skill has gained attention all over Australia and New York, where she had a sell-out solo exhibition at Artexpo New York. She has painted luminaries including actor Jack Charles, artist Vincent Fantauzzo, and community activist Les Twentyman OAM, and continues to explore different cultures and expressions through her unique style. This merging of ancient techniques with a fresh and dynamic approach has marked Joanne as one of the most intriguing portrait artists to watch in Australia.
